

IMPORTANT INFORMATION

CLASS I This is a Class I product and **must be grounded**. All electrical connections must comply with local and national electrical code.

SURFACE Do not install on newly plastered or damp surfaces.

LEDS The LEDs in this fixture are not field-replaceable.

WIRING REFERENCE — CLASS I

<input type="checkbox"/> Line / Live	BLACK
<input type="checkbox"/> Neutral	WHITE
<input type="checkbox"/> Earth / Ground	GREEN

SUGGESTED METHOD OF INSTALLATION

- 01** Read these instructions and confirm you have all tools and accessories required.
- 02** Turn off power at the main breaker before connecting.
- 03** Remove the wiring cover and connect supply leads to the 3-way terminal block. Ensure correct polarity and full grounding. All conductors must be fully sleeved and insulated. Replace the wiring cover. (FIG. 1)
- 04** Mark anchor positions on the ceiling, drill, and install expansion screws.
- 05** Drill housing into the ceiling.
- 06** Reinstall lens, then end caps.
- 07** Turn on the main breaker. Verify uniform illumination across the run.
