

DLDT Series
SIDE LED TAPE LIGHT
DESCRIPTION

This strip is designed to be hidden and then shine onto walls, backsplashes, toe kicks and so much more. The LED chips emit the lights out of the side of the strip with a concentrated lighting effect thanks to the high density of the chips. The design of the side light output makes it easier to conform to curved surfaces while shining light in a perpendicular direction from the mounting surface.

ORDERING MATRIX

DLDT	STYLE	CCT	IP - LUMENS /FT		ENGTH	CONNECTOR (If custom length)
DLDT	SIDE Voltage: 24vdc Wattage:4.0W/ft	3000K	20	67	16 - 16 FEET	BW6 - Bare Wire 6 inch
			248	223	CUSTOM LENGTH	BW__ - - Bare Wire Custom Length
			257	231		BRL - Barrel Connector 6 inch wire
			260	234		CLIPS
		4000K			NONE	
		5000K				

DLDT Series

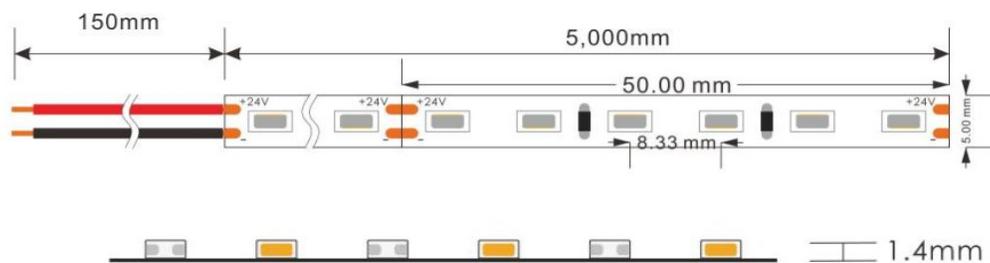

ACCORD LED TAPE LIGHT

PERFORMANCE DETAILS

Materials	Plastic
Dimensions	5mm wide
Input Voltage	24
Wattage Per Foot	3
Lumens Per Foot	250
LED Chip	2835

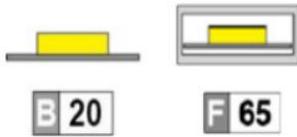

CRI	90
Mounting	In channel
Operating temperature	0-100F
Color Temperature	Ranges from 30K to 50k
Dimming capability	Per Driver
Certifications	UL
Beam Angle	120
Max Run	15 feet
Lumen per Watt	25
Cut Size	1.97 Inch
