# INSTALLATION INSTRUCTIONS FOR CJB

J-BOX Installation For 5INCH Slim Flush Mount

| Package Contents		
Part	Description	Quantity
A	Fixture	1
B	Mounting Bracket	1
C	Electrical Box Screw	2
D	Wire Connector	3
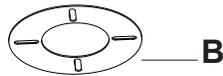

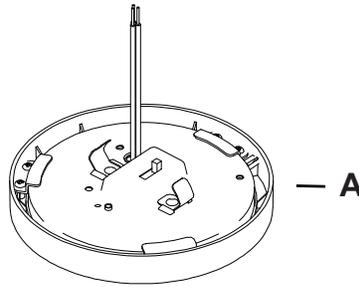

INSTALLATION:

1、Shut off power at the electrical panel before beginning the installation.
2、Remove existing fixture and set aside to recycle in accordance with local requirements.
3、Choose your favorite correlated color temperature (CCT) before installing the fixture housing to the electrical outlet box. （NOTICE: The factory setting for the correlated color temperature (CCT) is 2700K）
4、Feed ground,black and white wires from the electrical box through the mounting bracket.
5、Use screws to attach the mounting bracket to the electrical box.
6、Make the electrical connections:
• Black wire to black wire.
• White wire to white wire.
• Ground wire to ground wire.
• Use wire connectors to cover the wire connections.
7、Tuck wires inside the electrical box.
8、Snap the fixture into the mounting bracket，make sure the fixture is secure.
